

# Saint Andrew's Day Triarama Display

## Instructions

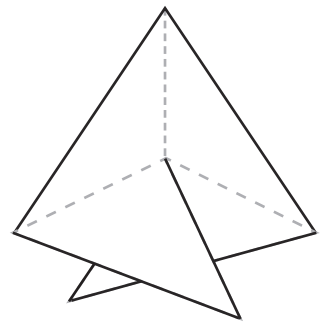

1. Cut along the solid lines.

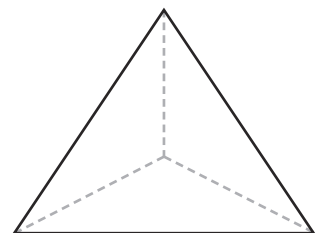

2. Fold the paper along the dotted lines.

3. Unfold and overlap the base pieces. Glue into place.

4. Decorate your triarama.

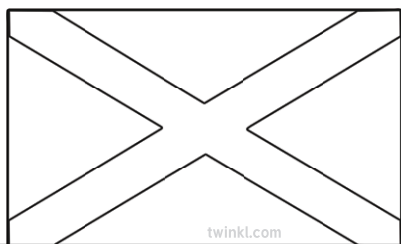

Now you have made your triarama, you are ready to create your own 3D illustration!

You can use your model to illustrate a story, character, place or event. Draw a background on your model, add text, such as poems or facts, and add cut-out objects or characters to the foreground your model. You can even group four triaramas together to make a more detailed model.

glue

Cut and colour the illustrations below to include in your 3D triarama. If you are using them for your background, cut off the bottom tabs. For images in the foreground of your model, cut and fold tab backwards and glue into place on the base of your model.
